PLAY BOTH FOR THE ULTIMATE ADVENTURE!
A NEW CHAPTER

Link awoke one day to find himself deep in a strange forest. As he started to walk through the woods, he heard cries for help coming from just up ahead of him. Link hurried toward the voice, only to find a group of monsters surrounding the woman who was screaming. When the monsters saw Link, they immediately fled.

The woman who was being attacked was none other than Impa, nurse to Hyrule’s Princess Zelda. Impa said she had come to the forest to search for a singer named Nayru. “Can’t you help me look?” Impa asked. Despite the strange look she gave him, Link could not refuse her request. Together they found a large stone with a rune on it. Naturally, Link moved the stone, but Impa wouldn’t so much as lay a hand on it.

As they traveled even deeper into the forest, they found a young woman singing. Invited to sit by the group of animals that listened to the girl’s song, Link joined in the circle and let the beautiful song fill his ears and penetrate his heart. This was surely Nayru, the singer Impa was searching for. Just then, Impa erupted in a cackling laugh.

“Ha ha ha ha ha!”

A darkness surrounded Impa, and a frightening shadow lifted from her body.

“Nayru! Oracle of Ages! I, Veran, Sorceress of Shadows, shall make you my own!”

The shadow that called itself Veran began swooping about the forest before flying straight into the body of the frightened singer. A blinding light shone forth from Nayru’s body.

When Link’s eyes had grown used to the light, he realized that Nayru looked very strange. Her face seemed veiled in shadow, and her bright smile had vanished. A piercing, evil gaze had replaced it.

“Ha ha ha ha ha!”

“Now the power of the Oracle of Ages is mine! I can travel through time at will! Now a new age shall begin—an age of shadows!” And with that, Veran and Nayru vanished.

Nayru was actually the Oracle of Ages who controlled time in this land of Labrynna. When the oracle was kidnapped, the flow of time in Labrynna was distorted, and strange things began to happen. Before vanishing, Veran said, “When the past changes, so does the present.” Her plan was to travel to the past and gather power from the sorrows of the people of Labrynna so that she could create her age of shadows.

Will Link be able to free Nayru from Veran’s evil clutches? Such is the quest that Link must now undertake.
**LEGENDARY FIGURES**

**Link**
After being plucked from Hyrule by the Triforce, Link finds himself in the distant land of Labrynna. After saving Impa from marauding monsters, Link learns about Nayru, the Oracle of Ages, and embarks on a new adventure.

**Nayru**
As the Oracle of Ages, Nayru wields power over the currents of time in Labrynna. She is a wise and serene young woman who spends her days singing songs and wishing for peace. Little does she know the Sorceress of Shadows covets her powers.

**Ralph**
Ralph is Nayru’s hot-tempered childhood friend. His hastiness and lack of focus can sometimes lead to trouble. Having seen his dear Nayru taken from before his very eyes, Ralph is determined to rescue her.

**Veran**
Veran, who has disrupted the flow of time in Labrynna, is the Sorceress of Shadows, and is able to possess the bodies of others and force them to do her bidding. Her plan is to control time from the past to fulfill her hidden desires.

**Ambi**
Ambi is a Labrynian queen from the distant past. She’s been building Ambi’s Tower, but recently the villagers have begun to call it the Black Tower. Something has changed the queen’s once kind nature, but just what remains a mystery.

**Princess Zelda**
The Royal Princess of Hyrule is a symbol of the people’s hope. Her vivid dreams allow her to predict when something evil is about to happen in the world.
Maku Tree
This giant tree is Labrymna’s guardian. Link is able to earn her favor by helping her in the distant past—when she was but a young sprout.

Impa
As royal nurse, Impa has cared for Hyrule’s Princess Zelda since her birth. Link rescues her from an attack by roving beasts, but something about her doesn’t seem right...

Great Moblin
The Great Moblin has begun to harass the Gorons with the hope of getting a monopoly on their prized Bomb Flowers.

Vasu
The only jeweler in the world of Labrymna, he appraises the secret powers of rings made from magical seeds. Vasu also has two pet snakes.

Bipin & Blossom
Bipin is a famed tree planter who grows Gasha Seeds, and freely offers information about them to curious travelers. Blossom is his wife. Together they have a young child who is full of promise. What kind of man will this child grow up to be?

Maple
Maple is an apprentice witch to her grandmother. She often sneaks away from training and flies around on the magic broom she recently learned to ride. Occasionally, she unexpectedly flies down and crashes into Link.

These are but a few of the interesting characters you’ll meet on your quest.

THE LINK SYSTEM

You can play The Legend of Zelda: Oracle of Ages and Oracle of Seasons as two separate, independent games, but by linking the two together, you'll have an even deeper adventure.

As you play the two games, you'll learn many passwords, or secrets, that can be used to link the two games. These secrets that link the two games make up the link system.

Use Secrets or the Game Link Cable

Beginning a Linked Game

To begin this game as a continuation of The Legend of Zelda: Oracle of Seasons, choose an unused file on the File Selection Screen, then choose SECRETS or GAME LINK.

You cannot choose a file name when starting a linked game.

Game Link

Insert a new Oracle of Ages and a completed Oracle of Seasons Game Pak in separate Game Boy Color systems and connect the two systems with a Game Link cable. Next, turn the power ON and select GAME LINK in Oracle of Ages. Choose the file you want to continue when the Oracle of Seasons file list appears. Do not unplug the Game Link cable until DONE appears on the screen. Unplugging the cable during linking may cause saved data to be lost.

Don't press any buttons on the Game Boy Color with Oracle of Seasons in it! To link, you must have completed Oracle of Seasons.

Secrets

After choosing SECRETS, enter the secret password you learned after completing Oracle of Seasons. (You can review your secret in the Hall of Secrets on the completed Game Pak.)

- The secret shown on the right is only an example. It doesn't actually work.
Using Secrets

You will learn many passwords, or secrets, when you play a linked game. In addition to the secret for traveling to another land, you'll learn secrets for powering up items, bringing rings from another land to Labrynna, and for taking rings to another land.

**You'll hear secrets in many places!**

Check your secrets in the Hall of Secrets.

Using Items

You can perform the following actions only by using certain items.

When a description tells you to press a button, it refers to the button (A Button or B Button) that you’ve assigned the item to on the Subscreen. Some actions can’t be performed in certain conditions.

Sword: Attack

Press the button to swing your sword. If you hold your sword out by holding down the button, you can move without changing direction. Hold down the button to build up power in your sword’s blade. Once the sword has powered up, release the energy in a spin attack. This special attack technique inflicts more damage on enemies than a normal sword blow does.

Shield: Defend

Press the button to use your shield to block enemy attacks. Depending on the shield you’re using, you may not be able to block all attacks.

Power Bracelet & Power Glove: Lift and Throw

Face an object like a press clump or clay jar and hold the button down. Then press the + Control Pad in the direction opposite the one you’re facing to lift the object. Press the + Control Pad in the direction you want to throw the object and press the button again to throw it. You can damage enemies by hitting them with thrown objects.

Roc’s Feather: Jump

Press the button to jump over pits or dodge an enemy’s attack. If you jump while using the Pegasus Seeds, you will jump much farther than normal.

Pegasus Seeds: Run

Press the + Control Pad to run in one of eight different directions for as long as the Pegasus Seed effect lasts.

Zora’s Flippers: Swim & Dive

Press the + Control Pad to swim and the B Button to dive. By repeatedly pressing the A Button, you can swim faster than normal.
ITEMS

Press the A Button or B Button to select an item and use it. At the start of your quest, you will have no items. Your inventory of items will increase one by one as you meet people, explore dungeons and find new items.

Selected items can be changed on the Subscreen. Use the + Control Pad to move the cursor onto an item and press the A Button or B Button to assign the item to that button. Some items, like the Seed Satchel, can be used only a limited number of times. The number of times you can use an item is shown next to the item. There are different levels of power for the sword and shield. The level will be shown next to the item once it is powered up.

Sword

The sword is your main weapon. Use it to attack enemies and to cut grass. It is said that a very powerful sword and a very special sword are hidden somewhere in the land.

Shield

Use the shield to defend against enemy attacks. Some enemies can’t be defeated unless you use a shield. Once you find a stronger shield, you’ll be able to defend against attacks your regular shield couldn’t handle.

Harp of Ages

Use this harp to move back and forth between the present and the past. Playing tunes on the harp allows you to travel through time. (Page 32)

Seed Satchel

The Seed Satchel holds your Mystical Seeds. Set the Seed Satchel to the A or B Button to use the seeds.

Roc’s Feather

Roc’s Feather magically makes your body feel much lighter and allows you to jump into the air. Use Roc’s Feather to jump over pits and dodging enemy attacks.

Power Bracelet

The Power Bracelet fills your body with strength and enables you to lift stones, earthen pots and clumps of grass. You can also throw these objects.

Switch Hook

Shoot this hook at distant objects to trade places with them. It also works on certain enemies, causing you and the enemy to switch places.
### Seed Shooter
Use this weapon to shoot your Mystical Seeds at distant objects and enemies. The seeds can ricochet off of walls and other objects to travel even farther.

### Cane of Somaria
With a single swing, this cane will magically cause a large block to appear before you. Blocks created with the cane can be carried, thrown, and even pushed around.

### Shovel

A Bomb blast can damage enemies or blow holes in cracked walls. Press the button to pick up a Bomb, then press the button again while holding the + Control Pad to throw it.

### Flute
Play your flute to call a friend for help when you need it. If your friend is too far away to hear the flute, though, he may not come.

- **Poe Clock**
  - It is said that one who is able to help a wandering spirit move on to the afterlife will be given this strange clock in return. Surely someone, somewhere, needs a clock.
Rings

The many Magical Rings made from Mystical Seeds have special powers, and the effects of each ring are different. These rings can be found throughout the lands, but some of them are extremely rare.

Ring Appraisal

Even if you find a ring, you will not know the ring’s power until you take it to Vasu, the jeweler, to have it appraised. A ring must be appraised before you can wear it.

Ring Box

You’ll carry your rings in a Ring Box. To put rings in the Ring Box, talk to Vasu and choose LIST to see a list of all of your rings. Next, select a ring you want to carry with you from the list and press the A Button to put the ring inside the box.

DUNGEONS

In the dungeons of Labrynna, you'll find powerful monsters and complicated traps that will block your path. Search every nook and cranny inside dungeons to defeat the monsters and solve hidden puzzles.

Inside dungeons, your Rupee indicator changes to a key indicator, showing you how many keys you have.

Treasure Chests

In dungeons, you'll find many treasure chests that may contain Rupees, items or other treasures. Some are easy to find, but you'll have to solve complicated puzzles to find others.

You'll have to explore many dungeons to find all of the Essences of Time. (Pg. 40)

Dungeon Items

The items described below can be used only in the dungeon you find them in. You can check which Dungeon Items you've obtained on the Dungeon Map.

Dungeon Map

The Dungeon Map shows the layout of all the rooms in the dungeon. The darkened rooms on the Map Screen are ones you have not entered yet.

Compass

The Compass shows you where to find treasure chests and the lair of the dungeon's boss. It also makes a noise when you enter a room that has an unopened chest.

Keys and Boss Keys

You'll need the Boss Key to open the door to the boss's lair. Other keys found in the dungeon can be used only once to open a locked door or block.
Viewing the Dungeon Map

The Dungeon Map appears only when you open the Map Screen inside a Dungeon. Lighted Rooms are ones you have explored. The map shows the layout of the entire dungeon. You can also check your current location and Dungeon Items on the map screen.

The Dungeon Map shows the layout of all rooms in the dungeon.

Essences of Time

Hidden across Labryana are eight Essences of Time that possess special powers. There is one essence in each dungeon. Use your power, wisdom and courage to recover all eight essences.

Collecting all the Essences of Time will trigger an important event!

Tips for Dungeons

Cracked Walls

Use Bombs to blow holes in cracked walls, opening rooms on the other side. Some walls that are not cracked can also be destroyed with Bombs.

Pits

You will lose life energy when you fall into a pit, then you'll be returned to the entrance of the room. Some pits are not bottomless—a fall into one of these will land you in the room.

There are many other tricks in dungeons. If you see anything suspicious, try everything you can think of.
HEARTS & LIFE ENERGY

Life Energy Meter

Even if your life energy falls very low after taking damage, you can still recover by collecting Hearts. Hearts can be bought at stores, but you can also get them out of jars, from under clumps of grass, and even from some enemies. If you catch a small fairy, she'll refill six Hearts. Also, the Great Fairies found in the Fairy Fountain will restore all of your lost Hearts. Fairies and Great Fairies will be of tremendous help.

Heart Container and Pieces of Heart

You start the game with only three Hearts. Your life energy increase with each Heart Container you find. Dungeon bosses keep Heart Containers, but you can also get them by collecting four Pieces of Heart. Pieces of Heart are hidden throughout Labrynna.

Magic Potions

If you have a Magic Potion, your life energy will be completely replenished the instant it reaches zero. A Magic Potion is very useful, but it can be used only once, and you can carry only one at a time.

Finding such a valuable item will likely require great effort!

It is rumored that a witch makes and sells Magic Potions in her shop in some far-off corner of the world.
PARTNERS IN YOUR JOURNEY
You'll meet several reliable friends as you travel. Each one has special abilities that can aid you in your quest.

Ricky
Ricky will carry you in his pouch as he hops around. Ricky's best attack is his powerful punch.

Moosh
Moosh can fly around with you on his back. He can also hit the ground with great force, smashing nearby enemies.

Dimitri
Swimming is Dimitri's specialty. He can swim any sea and can even swim up waterfalls. You can use the Power Bracelet to carry Dimitri around.

Moosh
Play the flute whenever you need a partner's aid. Your partner will show up as soon as he hears you. He won't come if the sound of your flute cannot reach him, though.

You can get only one flute to call a partner. The flute you get depends on how you go through your quest.

You'll meet your partners again if you finish Oracle of Ages and use the secret password to continue your game in Oracle of Seasons.
TIPS FOR ADVENTURERS

Below are some tips that will help you in your quest.

Traveling Through Time

Traveling through time is an important part of your quest. If you find yourself stuck in the present, travel to the past to find a way around the problem. If you can’t get past an obstacle in the past, going to the present may open the way. You’ll find that travel is the key to solving many problems.

The Relationship Between Past and Present

There will be times when actions and events in the past directly affect the present. Look to the past to solve problems in the present.

Differing Terrain

During your travels, you may find that some terrain in the present is different from the terrain in the same area in the distant past. If the terrain of one age blocks your path, you may find that traveling to another age will open the way.

Tunes and Time Portals

You can play three different tunes on the Harp of Ages (Pg. 32). There is said to be a particular tune that gives power to the Time Portals found across the land. By playing this tune, you can activate the Time Portals and use them to travel through time.

Fairy Fountains

Visit Fairy Fountains when your life energy is low. The Great Fairies can replenish all your lost hearts. Pay attention to where the Great Fairies live.

Fight With Maple

If the music changes and you see a strange shadow moving about, Maple is nearby. If you happen to bump into her, you’ll have to fight her for the dropped items. You may get something very valuable from the fight.

Gasha Seed

You can plant Gasha Seeds in the patches of soft earth found throughout the lands. After planting a Gasha Seed, it will grow into a tree that produces a nut. What’s inside the nut is a surprise.

Magical Rings

The Magical Rings all have different effects. Learning to use particular rings at particular times will help you complete your quest!
LINK YOUR GAMES, RECORD YOUR SECRETS!

Upon completing The Legend of Zelda: Oracle of Ages, you will learn the secret (password) that will let you continue your quest by traveling to the distant land of Holodrum. Record this secret below and enter it into a Legend of Zelda: Oracle of Seasons Game Pak to continue your adventure with an all new quest!

As you play, you'll learn more secrets that will let you bring items from one game to the other, power up the items you have, and even give new items that are otherwise unavailable! (See pg. 16 for details about linking.)
